Hello Mrs. Tisdale:

On behalf of the San Diego County, Planning Commission, I would like to thank you for your correspondence. Your correspondence will be distributed for review by our Planning Commissioners.

Thank you,

*Lisa M. Fitzpatrick*

**Subject:** Soitec Solar - errors & omissions

**For the Soitec FEIR record/decision makers:**

Back on March 3, 2014, I filed sixteen pages of errors and omissions on the Soitec Solar DPEIR. That list is posted here: <http://www.sandiegocounty.gov/content/dam/sdc/dplu/ceqa/Soitec-Documents/Record-Documents/2014-03-02-DonnaTisdale-Comment-Letter-Soitec-Solar-DPEIR-Errors-and-Omissions.pdf>

That 16-page list was incomplete due to lack of time on my part and does not address new Project Design Changes or other new information/changes in the FEIR that will be addressed in separate comments to follow.

**I have reviewed the FEIR response to comments and was disappointed to find only very few corrections and a few unclear responses to that list.**

Out of 46 numbered errors/omissions listed on pages 1-10, only 6 responses, partial responses or unclear responses were located in the FEIR for the following: #3; #4; #15; #21; #24; and #25.

Of the remaining errors/omissions list from my March 3rd list, on pages 10-16, only one positive change was noted for **Fire # 2** on page 11, which requires Soitec to provide annual funding for local fire fighting/EMT services.

While the few corrections and the changes to required funding for fire fighting/EMT/training services are very much appreciated, a significant number of errors and omissions remain and cannot be ignored by decision makers.

The County must revise and recirculate the EIR for adequate public review and comment as required by CEQA.

Regards
